

Using the Terminal Server (Remot Desktop) from outside the school

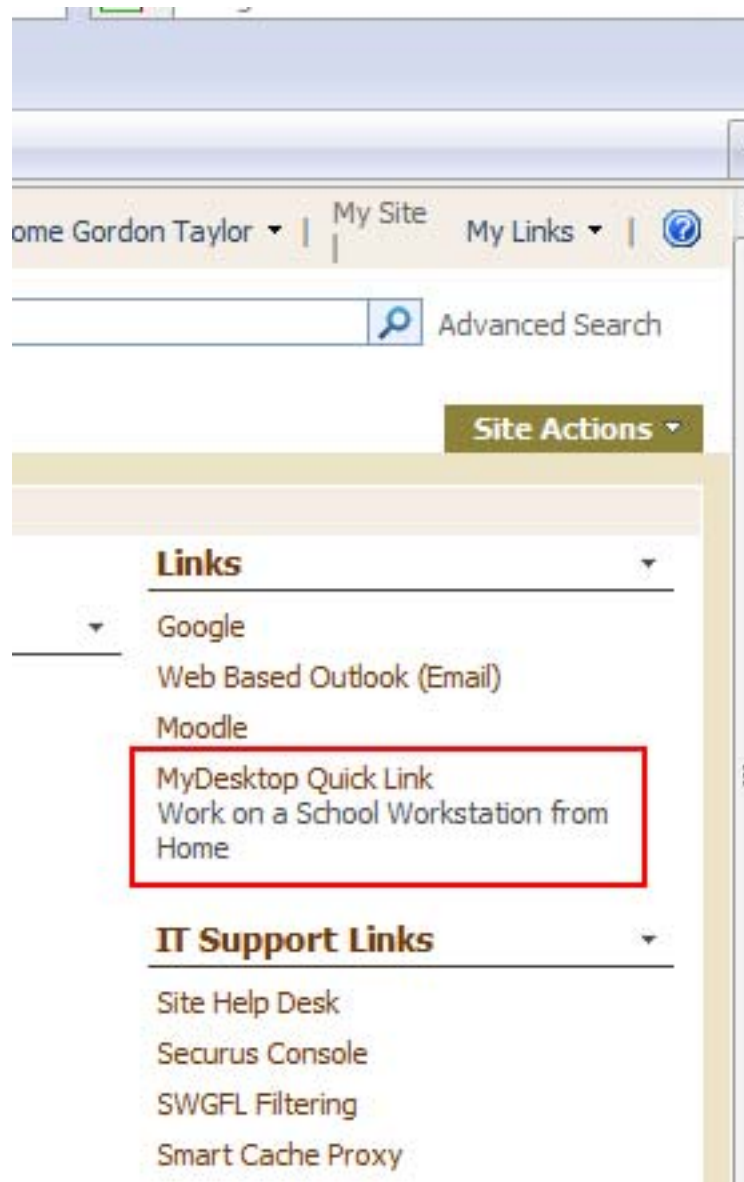

Log onto the Intranet

<https://intranet.crypt.gloucs.sch.uk>

Remember that Credentials need to be passed as crypt\username from outside

Once Logged on on the Right there is a Link MyDesktop Quick Link

to avoid having to log onto the intranet first in the future save the file some where on your computer and you can simply run it later.

Depending on the Operating System the next dialogue box may vary

it will ask you for your user name and password. Again make sure your user name is presented crypt\username

in some instances it may ask you twice for your user name and password.

Once logged in you get presented a desktop as if you were working at a pc in the school
